## CLEANING INSTRUCTIONS FOR NORMAL STAINS

Remove any loose dirt. Prepare a mixture of cold to lukewarm water (do not exceed 100° F) and mild soap. Rub in mixture with a soft brush and allow the mixture to thoroughly soak into the fabric. Rinse well with water and air dry. Do not machine dry.

## CLEANING INSTRUCTIONS FOR STUBBORN STAINS

Remove as much surface dirt as possible. Soak fabric for 1 hour in a mixture of 1 gallon cold water, 1/2 cup bleach, and 1/2 cup mild soap. Rub in mixture with a soft brush and rinse thoroughly with cold to lukewarm water and air-dry. Never use water over 100 degrees Fahrenheit. Do not machine dry. Detergents can be used on Outdura without harm; however, it may remove some of the water and stain resistant properties. If this is important to you, a simple spraying of a post cure fluorocarbon will restore these properties. Please follow the instructions on the package. These sprays can be obtained through a dry cleaning supply store or stores that sell marine related products.

## Other helpful tips:

Never dry clean Outdura fabrics.

Never use a steamer on Outdura fabrics.

If ironing is necessary, carefully iron on synthetic heat setting, do not use steam.

If machine washing Outdura fabrics, fabric should air dry.
