

---

*SUNSETTER MODEL VISTA & XL – MOTORIZED OR MANUAL*

*VISTA AND XL WILL HAVE THE ARMS UNDER THE FABRIC (LATERAL ARM STYLE)*

---

A- Measure frame width. (Should be an even foot measurement)

B- Measure Projection to determine Sunsetter Model.

- Vista has a 7', 9', & 10'2" projection depending on width of awning.
- XL will have a 11' 8" Projection.
- A motorized or manual awning will not affect the size of your fabric.

Use the charts below to double check your frame and fabric size.
