

Sunbrella vs Solar Pro

Sunbrella and Solar Pro are both solution-dyed acrylics and are made of synthetic fibers, they are both mildew and mold resistant. The cost of the Solar Pro is slightly lower because of limited color selection. Both brands have 10-year warranties.

Sunbrella Brand Acrylic Fabrics

- Solution-dyed acrylic.
- Woven fabric made of 100-percent acrylic fibers. These are solution-dyed fibers with a water-repellant finish.
- 9.25 oz. per square yard.
- Available in over 100 colors, solids and stripes.
- Underside: Same as top surface—both sides alike.
- [Sunbrella Colors](#)
