shutter and shade solutions

ENGINEERED PROTECTION SYSTEMS
For Commercial and Residential Applications

About Us

At Alutech United, Inc., we are more than just a manufacturer of advanced protection solutions - we are your partners in safety, security, and innovation. With a legacy spanning 30 years plus, we have become a trusted name in the industry, known for delivering cutting-edge products that safeguard homes, businesses, and properties from the forces of nature and the challenges of security.

Our History:

Founded in 1993, by Hans Schanz, Alutech United, Inc. embarked on a journey fueled by a passion for creating reliable, robust, and technologically advanced protection systems. Over the years, we have continually evolved and adapted, pushing the boundaries of engineering excellence to meet the evolving needs of our customers.

From our humble beginnings as a small workshop, we have grown into an internationally recognized company with a global footprint. Our unwavering commitment to quality, innovation, and customer satisfaction has been the cornerstone of our success, enabling us to build lasting relationships with architects, contractors, homeowners, and business owners alike.

Our Mission:

Our mission is to provide you with more than just products - we offer peace of mind. Whether it's shielding your property from the fury of hurricanes, enhancing security against potential threats, or bringing comfort through energy-efficient solutions, Alutech stands as a symbol of protection and reliability.

What sets us apart:

- **Innovation:** We stay at the forefront of technology, consistently developing innovative solutions that anticipate and address the challenges of the modern world.
- **Quality Craftsmanship:** Our products are crafted with precision and care, ensuring that each piece is a testament to our dedication to quality.
- **Tailored Solutions:** We understand that every need is unique. That's why we work closely with you to design solutions that perfectly match your requirements and vision.
- **Global Reach, Local Touch:** With a global presence, we bring international expertise while maintaining a personalized, local approach to customer service.
- **Community Engagement:** We believe in giving back to the communities we serve, actively participating in initiatives that promote safety, education, and sustainability.

Thank you for considering Alutech United, Inc. as your partner in protection. Join us as we continue to pave the way for a safer, more secure, and brighter future.

alutechawnings.com

Advanced Arm Technology

While others have exposed cables or chains, our cables are covered in a thick polypropylene coating to give your arms strength to last years.

Crank Adjustable Pitch

Adjust the degree of the pitch on your awning to what you desire, with just a simple crank.

Semi Cassette Hood

The Semi Cassette hood gives the awning a sleek look and protects your fabric from the elements.

Electronic Accessories

Our world class wireless components make operating your shading system effortless. Simply push a button on your remote to open or close your awning and to operate the LED lights!

10 Year Warranty on electronics and motor

Crank Over-ride Motor

With the crank over-ride motor never worry about power failures again. Simply insert the crank handle hook into the over-ride eye to operate.

LED Lighting Arms

Every Sun Shield awning comes with LED lighting built directly into the arms. You can turn these lights on or off using the same hand held remote control.

Strong winds can cause damage. Protect your investment with the WireFree Wind Sensor. Automatically retracts your awning when strong winds are detected.

**SUN
SHIELD**

*Wind damage can still occur if left out, even with sensor Customize your retractable awning to fit your decor and taste with almost endless fabric and color combinations. When not in use the awning is completely self-storing and retracts back at the touch of a button with no unsightly poles left behind.

Frame Color Choices

Fabric Choices

With over a hundred fabric choices to choose from, your options to match your patio furniture are almost endless.

sunbrella®

Durable

Sunbrella performance fabrics are made for living, standing up to wear with long-lasting strength.

Comfort

Our comfortable, soft to the touch performance fabrics are designed to enjoy and take on everyday living.

Easy to Clean

Sunbrella performance fabrics are easy to clean, stain resistant, and bleach cleanable.

Color Stable

Sunbrella performance fabrics boast diverse, rich colors that stay brilliant with built-in UV protection.

Tested Performance

Our awnings are tested for the every day situations that may arise, so you can have piece of mind when purchasing a Sun Shield awning.

ZipTex

RETRACTABLE SCREENS

Shading | Sun and Insect Protection | Clear Enclosures

Web site link

Manufactured
by **ALUTECH** 
shutter and shade solutions
alutechscreens.com

Any type of establishment can benefit from rolling screens, from residential, commercial, and even restaurants and bars. Screens can offer solar, wind, privacy and comfort control in an instant notice.

OBSTACLE DETECTION!
Senses objects in path and prevents damage.

Zipper Lock Tracks

Our Zipper track retention system provides stronger wind loads than others systems on the market.

- 20ft tall max screen height
- Snap in screw cavity cover
- Can be installed trapped or surface mount with same rail

Small Bottom Bar

Small, 2" tall bottom hem-bar minimizing the impact into your openings view.

- Bottom Brush for a bottom seal against insects
- Stainless steel internal weight bar - *NOT galvanized*

Heavy Duty Housing

Extruded aluminum housings with powder coat finish are standard for our Zip Tex system. Including an industry leading material thickness, giving a housing to last years.

- 23 ft wide max screen width
- 4.5" Housing size | 6.0" Housing size, if over 19ft wide
- Housing entry brush standard - seals housing from critters

Sun
Protection

RETRACTABLE SCREENS

ZiP Tex

Screen benefits

- Turns any outside area into a usable room: garages, patios, balconies, porches, gazebos, car ports or entry ways
- Provides shading from the sun's harmful UV rays and reduces television screen and computer monitor glare
- Reduces air conditioning expenses by as much as 60%
- Protects home furnishings from fading
- Enhances privacy but does not obstruct views
- Keeps out pesky insects and other unwanted pests

Insect
Protection

Roll-Away
Clear Enclosures

Frame Color Choices

We offer 4 stocked colors to choose from.

Prices may vary depending on color choice. Surcharges apply to custom color

ALU STAR

THE EVERYDAY ROLLING SHUTTER SYSTEM

Alutech's **HDX** Accordion Hurricane Shutters are designed to cover windows, sliding glass doors or enclose total balconies and lanais. The **HDX** Accordion Shutters have been tested to meet or exceed the most stringent requirements for Hurricane Shutters in the industry, such as:

- International Building Code (IBC)
- Florida Building Code (FBC) HVHZ
- Miami-Dade County

The **HDX** Accordion Hurricane Shutters are permanently installed for year round protection. They fold back compactly similar to a louvered door and are one or two piece shutters. They are installed around the window and door frames, balconies, lanais and large patio openings.

DIRECT MOUNT END STARTERS

Features:

- Improved stacking providing better less stack back space
- Heavy duty lock centermates. No locking pins needed.
- KEY or THUMB locking cylinders
- Lower system cost
- Faster assembly and installation times
- Direct mount track end starters
- Improved corrosion resistant hardware.
- All tracks are heavy duty available in ceiling, 1" and 2" headers and walkover and adjustable tracks for doorways.
- NO LIGHT DUTY HERE! Over 26% heavier gauge material than most of the competition.

Benefits:

- Built to withstand hurricane force winds that exceed 140 psf equivalent to 227 mph.
- Made from high quality extruded aluminum and stainless steel parts.
- Encloses entire balconies or lanais with one shutter.
- Protect patio doors from rain and wind damage.
- Steel installations available on our approval prints.
No site specific engineering required. (1/8" min. thickness applies).
- Up to 36% considerably higher design pressures than our competition.

Alutech's **HDX** Accordion Shutter features Hurricane Protection for residential and commercial applications.

The **HDX** Accordion Shutters are convenient, and easily open and close. They can be locked from the inside or outside for increased security and protection.

HDX accordions are made of thick extruded aluminum, then coated with a thick powder finish. Giving the **HDX** the life span you want from a hurricane shutter.

Accordion Shutters are considered one of the strongest shutters available. So don't settle for thin comparisons.

BARRACUDA

HURRICANE & STORM SHUTTER

Hurricane / Storm Protection | Security Prevention

Web site link

Manufactured
by **ALUTECH**
shutter and shade solutions
alutechscreens.com

Our **BARRACUDA** shutters provide you with code compliant hurricane protection with smaller housings. Similar to our Magnum roller shutters, the end retention system built into our Barracuda shutters eliminates the need for storm bars. The Barracuda EXCEEDS even the toughest standards required by both international and domestic building codes.

VENTED SLATS

Slat Retention Lock Tracks

Our one-of-a-kind "end retention system" coupled with our **Double Walled Slat**, eliminates the need for intermediate vertical storm bars.

This patented technology allows for SMOOTHER, QUIETER shutter operation.

- 20 ft tall max shutter height
- Snap in screw cavity cover

Slat vent options

2 options for slat

- **Solid**
 - No light vent slits between blades, open or closed
- **Vented**
 - Light slits between slats, allowing in light and air when shutter is left in the partial open stage.

Small Housing

Aluminum housings with powder coat finish are standard for our Barracuda's system. Including an industry leading material thickness, giving you a housing to last years.

- 19.5 ft wide max shutter width* hurricane rated max 16ft
- 5.5" - 12" Housing cassette sizes, depending on height
